American Precision Prototyping Acquires Spectrum3D

Tulsa, OK, November 1st, 2006 – American Precision Prototyping (APP) acquires Spectrum3D in Tustin, California.

"We are extremely excited about our new relationship with Spectrum3D. This acquisition has supplied APP with much needed capacity not only for our rapidly growing Stereolithography requirements but also for our high-end cast urethane needs." stated Jason L. Dickman, president of APP. "Additionally, we felt it was critical to add a second facility to better serve our clients on the West Coast" Dickman added.

Spectrum3D is a six year old service bureau located in Tustin, California that specializes in the manufacturing of high-end cast urethane parts and rapid prototypes to hundreds of medical, aerospace, automotive and consumer products customers in the Southern California area.

About American Precision Prototyping, LLC
